Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Thursday 07 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cold with wintry precipitation, and an ice risk.

This Evening and Tonight:
Feeling cold with further outbreaks of rain, sleet and snow through the night. Widespread frost is expected, locally severe over any snow cover, and turning icy in places. Minimum temperature -5 deg C (23 deg F).

Friday:
A cloudy day, with a continued risk of ice in the morning. Further wintry outbreaks are expected to continue through the day, but clear into the night. Remaining cold. Maximum temperature 3 deg C (37 deg F).

Outlook for Saturday to Monday:
Frosty and dry, with sunny spells Saturday. Milder temperatures into Sunday, as it becomes cloudier with outbreaks of drizzle. Turning unsettled Monday afternoon, with stronger winds and persistent rain.
